

**“Being unable to participate in calls can be very isolating; ensuring every team member has good quality audio equipment helps.”**

**“I think it's important that we are all equipped to work successfully from home and would like to have a policy / approach such that everyone knows that this is important to the company”**

**"I think our tools are fine.  
I don't think they differ from  
other companies."**

**"I feel like the ability to choose equipment that best suits your way of working/needs is really beneficial rather than a one-size fits all approach."**

**"The technology stack are all great choices. I'm on the fence about Slack for video/audio."**
